

Our Principles **Mission Statement**

MISSION STATEMENT

We

have set the goal of being among the industry's leading service providers. Independent audits / assessments and certifications constitute our core business.

Furthermore, we ensure that sustainable value is created for clients that goes beyond the scope of certification activities.

Since

our establishment, we have been committed to safety and quality. A strong sense of responsibility for our own company, for society, and for the environment is considered an unconditional fundamental principle. This is meant to ensure the achievement of sustainable goals without conflicting with the interests of society.

We

provide services that lead to higher quality and safety standards. This helps us gain trust from our customers, maintain long-term business relationships, and establish a framework to tailor a holistic approach to the specific needs of our clients. This approach enables us to deliver maximum value.

We

live our values. Agile and innovative work methods are characterized by customer orientation, respect, and integrity.

This ensures that we align with the standards of customers who operate internationally and have diverse cultural backgrounds.
